**Orthesis & Knee Immobilisers**

**Ref.: 94260 (4 Narrow bands, 4 Straps)**

- **Characteristics:**
  - Knee orthosis with monocentric articulation. –10° to + 30° locking system. 0° to 120° flexion control in intervals of 10° and –10° to +30° extension control in intervals of 10°. Ref.: 94260 has 2 femoral straps (thigh) and 2 tibia straps (calf), Ref.: 94261 has 2 wide strips which cover practically all the knee.
  - **Indications:**
    - For unstable or lesioned knees.
    - Post-operation and post-traumatic rehabilitation.
    - For relative immobilisation of the articulation in situations which require perfect control.
    - When we are interested in controlling the mobility of the post-operation knee (cruciate ligament surgery).
  - **Colour:**
    - Black/Grey.

**Ref.: 94261 (2 Wide bands, 4 Straps)**

- **Characteristics:**
  - Knee orthosis with monocentric articulation. –10° to + 30° locking system. 0° to 120° flexion control in intervals of 10° and –10° to +30° extension control in intervals of 10°. Ref.: 94260 has 2 femoral straps (thigh) and 2 tibia straps (calf), Ref.: 94261 has 2 wide strips which cover practically all the knee.
  - **Indications:**
    - For unstable or lesioned knees.
    - Post-operation and post-traumatic rehabilitation.
    - For relative immobilisation of the articulation in situations which require perfect control.
    - When we are interested in controlling the mobility of the post-operation knee (cruciate ligament surgery).
  - **Colour:**
    - Black/Grey.

The mediolateral foam padded plates prevent the orthosis from rubbing against the leg, and are fitted with a fastening system with straps for adjustment.

Prolongation system using telescopic bars and friction clips to set the bar at the required height, from a minimum of 44 cm up to a maximum of 69 cm.
