THERAPEUTIC SHOES
WHAT ARE THERAPEUTIC SHOES?

They are shoes designed and manufactured with the aim of **alleviating the problems faced by patients with foot ailments or disorders**. They are made from high-quality materials to prevent the onset or proliferation of wounds or abrasions and ensure the wellbeing of the feet. They ensure comfort by decreasing daily pain.

**THEY ARE DESIGNED TO ALLEVIATE A NUMBER OF DIFFERENT DISORDERS:**

- Foot inflammation and pain.
- Post-operative or residual swelling.
- Very thick bandages.
- The use of insoles and/or bulky devices.
- Post-trauma and post-operative.
- Corns, calluses, nail diseases.

**ALSO SUITABLE FOR OTHER PATHOLOGIES:**

- Foot deformities that inhibit the use of a standard shoe (claw toes, hallux valgus, etc.).
- Rheumatoid and/or arthritic feet.

**A HOST OF ADVANTAGES:**

- They allow the initiation of movement and improve the capacity of people with walking difficulties.
- They provide efficient help for many foot pathologies and for wound healing.
- They can even be used with an orthosis.
CHARACTERISTICS
The Orliman Feetpad range features two types of collection differentiated by the product’s technical specifications and the materials used in its manufacture.

EXTREME COMFORT COLLECTION

**WOMEN'S MODELS**
- Ref: OF1100
  - BELLE-ÎLE®

**UNISEX MODELS**
- Ref: OF1310
  - Ref: OF1300
  - Ref: OF1600
  - Ref: OF1500
  - BRÉHAT®
  - RHUYS®
  - NOIRMOUTIER®

THE MATERIALS USED PROMOTE COMFORT AND EASE OF USE:

**INNER FABRIC**
- CARBON® technology
- COOLMAX® technology

**OUTER FABRIC**
- Breathable, slightly elastic fabric that improves the release of moisture, allowing evaporation and increasing the feeling of comfort.
- Water resistant.

**OUTER SOLE Rubber**
- Moderately non-slip to reduce the risk of falls.
- Highly flexible to adapt to the movement of the foot.
- For indoor and outdoor use.
- Natural rubber sole, contains latex.

**INSOLE**
- Memory foam
  - For immediate and lasting comfort.
  - Removable.
  - Specially adapted insoles can be fitted.

Out our shoes are machine washable at 30°

**CARBON® technology**

- ANTISTATIC
  - Thanks to its conductivity, the fibre absorbs and dissipates electrostatic charges in the environment, as well as during physical exercise.

- BACTERIOSTATIC
  - Looks after the skin and inhibits the proliferation of bacteria.

- HUMIDITY AND TEMPERATURE REGULATION
  - Speeeds up the evaporation of moisture reducing humidity on the skin and maintaining a constant temperature.

- HIGH PERFORMANCE
  - During the gait cycle, the concentration of lactic acid is reduced, blood circulation is improved and oxygen carried to cells.

- REFLECTIVE
  - Protects the body from the absorption of electrostatic electricity, electromagnetic contamination and UV rays.

**COOLMAX® and CARBON® technologies** have been tested with high antibacterial activity by the Textile Technology Institute AITEX®, ORLIMAN FeetPAD® footwear eliminates 99% of microorganisms found in shoes.

*Test report no. 2015AN2787 dated 17/12/2015.

UNISEX MODELS

THE MATERIALS USED PROMOTE COMFORT AND EASE OF USE:

INNER FABRIC

- Made from polyester with breathable mesh for easy release of moisture and ventilation.

OUTER FABRIC

- Fabric featuring a hexagonal design to improve the release of moisture for easy evaporation and an increased feeling of comfort.
- Water resistant.

OUTER SOLE Rubber

- Moderately non-slip to reduce the risk of falls.
- Highly flexible to adapt to the movement of the foot.
- For indoor and outdoor use.
- Natural rubber sole, contains latex.

INSOLE

Memory foam

- For immediate and lasting comfort.
- Removable.
- Specially adapted insoles can be fitted.

Our shoes are machine washable at 30°C.

www.orliman.com | 7
ADVANTAGES OF THE RANGE

All of our shoes adapt to the shape and physiology of the foot, providing support, protection and comfort. They maintain the proportion between the length and volume of throughout all areas of the foot (instep, toes etc.).

OUR SHOES ADAPT TO ANY CONDITION AND ARE BOTH ULTRA COMFORTABLE AND DURABLE:

- **ADJUSTABLE CLOSURE SYSTEM**
  for a perfect fit to the size of the foot

- **WIDE FRONT**
  to avoid pressure points

- **WIDE OPENING**
  for an easy fit

- **SEAMLESS**
  to reduce rubbing

- **COUNTER SUPPORT**
  for optimum support

- **MEMORY FOAM INSOLE**

- **FLEXIBLE ANTI-SLIP SOLE**
  to reduce the risk of falls
CHARACTERISTICS
- Very comfortable shoe with wide opening which can be worn with an orthosis.
- Polyamide closure system featuring a long adjustable strap to adapt to swollen insteps.
- Removable insole that allows the use of an orthopaedic insole.
- Double-acting material for a stylish and feminine shoe.
- Water resistant.
- Slightly elastic outer fabric for better adaptation to toe deformities.

COMPOSITION
- Polyamide closure system.
- Outer material: 100% polyester.
- Insole: Viscoelastic with polyester fibres and carbon material.
- Lining: Polyester fibres and carbon material.
- Sole: Natural rubber, contains latex.

INDICATIONS
- Pronounced insteps.
- Hallux valgus - Bunions.
- Rheumatoid and/or arthritic feet.
- Metatarsalgia.
